Original publisher: Maxwell Air Force Base, Ala. : Center for Strategy and Technology, Air War College, Air University, 1998 OCLC Number: (OCoLC)54756694 Subject: United States -- Military policy. Excerpt: . . . the following conditions apply: political considerations threaten to impede effective use of force; a clear and quick military win is not attainable; and public and congressional opinion is indifferent or hostile to the purpose for which force is being used. In effect, the Powell doctrine, like Weinbergers, not only places considerations of feasibility over those of desirability when it comes to using force. It also establishes, as the basic standard of feasibility, prior confidence in the near-certainty of military victory and political sustainability. The doctrine also ignores the likely presence - as in the Gulf War - of significant and politically indispensable allies in future major US wars, allies whose own interests may have to be accommodated in a manner violating doctrinal tenets. The Clinton administration, in response to strong congressional opposition to intervention in Haiti and Bosnia and sharp criticism of its handling of the Somalia intervention it inherited from the Bush administration,...
