

# Ring and Module Theory

By -

Springer Basel. Paperback. Book Condition: New. Paperback. 200 pages. Dimensions: 9.2in. x 6.5in. x 0.5in. This volume is a collection of 13 peer-reviewed papers consisting of expository survey articles and research papers by 24 authors. Many of these papers were presented at the International Conference on Ring and Module Theory held at Hacettepe University in Ankara, Turkey, during August 18-22, 2008. The selected papers and articles examine wide ranging and cutting edge developments in various areas of Algebra including Ring Theory, Module Theory, Hopf Algebras, and Commutative Algebra. The survey articles are by well-known experts in their respective areas and provide an overview which is useful for researchers in the area, as well as, for researchers looking for new or related fields to investigate. The research papers give a taste of current research. We feel the variety of topics will be of interest to both graduate students and researchers. We wish to thank the large number of conference participants from over 20 countries, the contributors to this volume, and the referees. Encouragement and support from Hacettepe University, The Scientific and Technological Research Council of Turkey (TUBITAK) and Republic of Turkey Ministry of Culture and Tourism are greatly appreciated. We also appreciate Evrim Akalan, Sevil Barn, Canan Celep Yucel, Esra Demiryurek, Ozlem...

## Reviews

*This book is definitely worth acquiring. I have gone through it and so I am certain that I will likely read through it again in the future. It has been printed in an exceptionally basic way in fact it is only after I finished reading this publication that it actually altered me, changed the way in my opinion.*

-- **Andres Bashirian**

*Comprehensive guide for publication fanatics. This really is for all who state there had not been a well worth reading through. I discovered this ebook from my dad and I encouraged this book to find out.*
