Such recoveries, however, are more apparent than real, as the urine still shows albumen upon analysis and the conjunctiva is edematous. Blood examination reveals a marked anemia. The slightest work causes the animals to blow, while the heart beats become fast. The animals sweat abundantly and sometimes drop in an exhausted condition. In this form the duration of the disease varies very greatly, ranging from a few weeks to several months. The chronic type is characterized by the symptoms of an extreme anemia. The patients become soft, lazy, the appetite indifferent and capricious, the coat rough and staring, while the hair of tail and mane can be pulled out with ease. The mucosa are pale and the temperature is...
