Oxford University Press. Paperback. Book Condition: new. BRAND NEW, Nursing: Communication Skills in Practice, Lucy Webb, The journey to becoming a nurse requires students to demonstrate effective communication skills with patients, carers and other healthcare professionals, based on sound evidence and apply these in a variety of care settings. Nursing: Communication Skills in Practice has been specifically developed as a one stop shop of healthcare communication theory and practical skills for all aspects of the pre-registration course - in both the classroom and on clinical placement. The authors introduce essential communication and interpersonal theories before explaining how these can be applied therapeutically with patients and carers, professionally with colleagues and on health records, as well as how to overcome common challenges in practice. Written in an easy to read, student friendly manner and accompanied by video, this text will help student nurses develop excellent communication skills so they are truly prepared for practice.
