Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Purposeful Handwork It is my hope that this little manual will be regarded by the lay teacher as a compilation of suggestions, and not as an extensive study, or final treatise on handwork. As society evolves, education must change to keep apace with it, so may this text serve as a waypost, not a goal. It was not my intention, originally, to write a book; the need developed and I met it as I could. The content of these few pages is the result of eight years of work, including experimental kindergarten and first grade teaching, physical education supervision in the elementary school, and Normal Training School instructing. I do not claim it to be original. It is a compilation of suggestions and ideas which have come to me from my own little daughter, from the children whom it has been my good fortune to teach in public schools, from Normal School students, from observation of daily life, and from individual study. The projects described have been worked out in an average one-teacher, one-room public school kindergarten or first grade of mixed population.
